Swivellink®

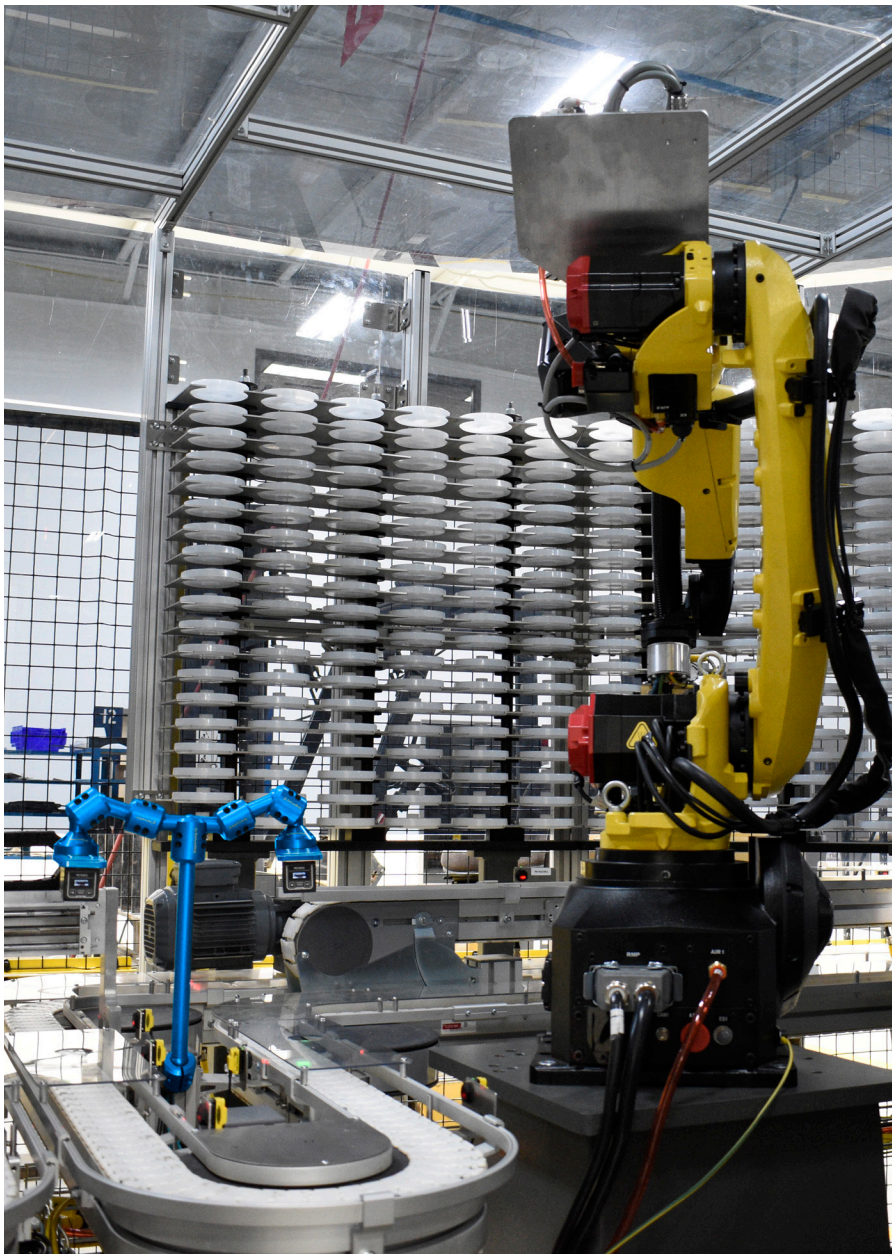

INTELLIGENTLY DESIGNED

Mounting Systems - Robot Workcell Components - Conveyor Systems

Built to Move Automation Forward

Swivellink®
INTELLIGENTLY DESIGNED

Flexibility to Create Your Own Solution

Swivellink designs innovative automation components that help manufacturers build cleaner, safer, and more efficient automation systems. From adjustable mounting solutions to robot workcell components and modular conveyors, our products are engineered to simplify installation, improve flexibility, and reduce downtime.

Swivellink products are available in multiple sizes and configurations, including metric and imperial options for many product lines, and are distributed globally through an extensive distributor network.

Mounting Systems

Benefits:

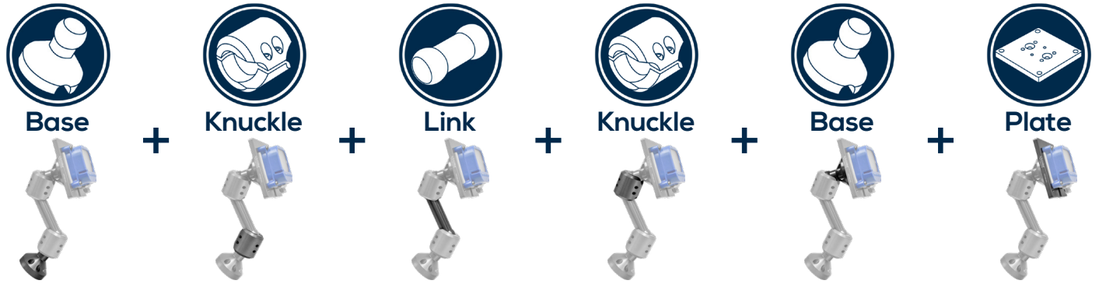

- » Small, Standard, Heavy Duty
- » Imperial and Metric options
- » Pre-Engineered Kits Available
- » Modular
- » Adjustable
- » Internal Cable Routing
- » Industrial Strength

Applications:

- » Vision Systems
- » Cameras
- » Sensors
- » HMIs
- » Lighting
- » Barcode Readers
- » End of Arm Tooling

Patented swivel technology that locks in the application. Swivellink mounting arms provide adjustable positioning while protecting cables inside the arm for a clean, professional installation.

Build Your Own Mounting System

Pre-Engineered Kits

Robot Workcell Components

Benefits:

- » Fast Integration
- » Heavy Duty
- » Field Proven
- » Built for Industrial Robots

Applications:

- » **Cobot**
  - » Pedestals 12”-48”
  - » Mobile Bases
  - » Mobile Carts
  - » Controller Mounts
  - » Cable Dress-Out Kits
  - » Parts Feeder
- » **Robot**
  - » Pedestals 24”-48”
- » Teach Pendant Holders
- » End of Arm Tooling

Whether installing traditional or collaborative robots, Swivellink workcell components provide stable, configurable platforms that simplify deployment & improve ergonomics. Workcell components are compatible with major robotic brands.

Conveyors

Benefits:

- » Modular
- » Configurable
- » Easy Installation
- » Expandable

Applications:

- » Assembly
- » Packaging
- » Material Handling
- » Inspection
- » Robotic Cells

Swivellink conveyors provide an easy-to-configure solution for light to medium duty automation applications & are available in tabletop, free standing or custom configurations.

Contact your Distributor for more information regarding a conveyor solution to meet your application needs.

Why Choose Swivellink

- » Industry's trusted mounting solution for over 20 years
- » Thousands of automation applications worldwide
- » Designed for industrial installation
- » Professional appearance
- » Reduced engineering time
- » Standardized designs
- » Eliminate custom fabrication
- » Locks into place for dependability
- » Easy to modify and adjust after installation

Applications

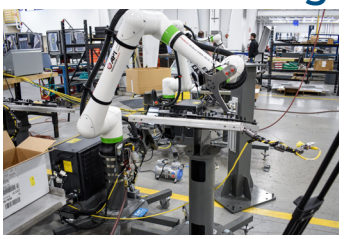

Automation

Robotics

Machine Building

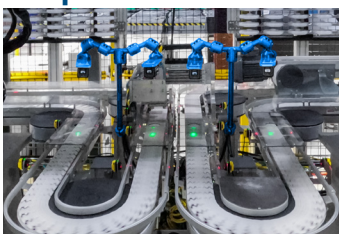

Material Handling

Packaging

Inspection

Welding

Assembly

Brand Match

Swivellink is designed to mount to basically every major brand. Scan the QR code to use our brand match to find your mounting plate/adapter.
